How to Measure Your Calf Length for Half-Chaps & Gaiters

It is important that you are wearing comfortable clothing which allows you to bend; your jods or breeches are ideal If you are going to wear thick socks with your half-chaps then put a pair on

Stand in front of a dining or office chair and lift your leg, placing your foot on the seat of the chair

See where your leg creases? Measure from here down your leg to your ankle bone centre

This is the length you require regardless of the style of the half-chap or gaiter
